Professional Summary

I am a self-motivated web developer with experience in managing and delivering client demands based on design and recommendations.

I also build mobile responsive websites for desktop and mobile app users, meeting high standards for web design, user experience, best practices, and speed.

Skills

HTML5 | CSS3 | BOOTSTRAP | JAVASCRIPT | MySQL | git & github |
React JS | SASS | WordPress | Basic Knowledge of Node JS and PHP |
Responsive Web Design (RWD).

- Effective communication skills, both in oral and written English.
- Willingness to learn, and can work independently and in a team.
- Problem-solving skills and tech enthusiast.

Work Experience

- Students' Industrial Work Experience Scheme (SIWES)
Transmission Company of Nigeria (TCN) Enugu, Nigeria, JULY – DECEMBER 2019.
I received hands-on training, knowledge, and industry-based experience in the use of electrical equipment/machines and general power system.
- Students Work Aid Program
Nnamdi Azikiwe University, Awka, Anambra State (2019/2020 academic year).
I worked with the Alumni Unit of the university, as an office assistant.
- NYSC Program
SwiftTalk Limited, 3/6 Alhaji Adejumo, ILupeju Industrial Estate, ILupeju Lagos,
November 24th, 2021 to November 3rd, 2022.
I worked with the team of the Software as a Service (SaaS) department as a web/software engineer.

My job includes; daily updating of the company's websites (<https://swifttalk.net/>, <https://raintreefarmsltd.com>).

Installation of WordPress plugins to give a high-end user experience and website functionality.

Research on the SEO web improvement for the company's website.

I also worked closely with the company's Human Resources (HR) personnel, with the application of modern HR software and research instruments like Zoho People.

Projects

- Built a mini mobile-friendly and responsive website – <https://www.eesa5nalists.com.ng> and <https://www.eesa5nalists.com.ng/xyz.php> for final-year students of the Electrical Engineering department, Nnamdi Azikiwe University, Awka (August 2020). Consistently maintain the features of the website to improve its functionality.
- Developed a prototype website suitable for a construction company, – <https://tcc-peach.vercel.app/>, (May 2022)
- Developed a church website (proposed for St. Anthony catholic church, Alagbado Lagos.), – <https://emmadegreat.github.io/st-anthony-site/> (JULY 2022).
- Developed a network admin login/logout interface that gives the admin access to the backend. <https://emmadegreat.github.io/network-admin-login-page/>

Training
